PHP, TypeScript, C#, Java

Front-end Skills:
HTML, CSS, Tailwind CSS, Vue.js, React.js, Angular

Back-end Skills:
Laravel, Livewire, FilamentPHP, .NET, Node.js/Express.js, JWT, RESTful APIs, Cloud Solutions.

Database Skills:
MySQL, PostgreSQL, SQL Server, MongoDB, Database Analysis (ERD/DFD).

Other Computer Skills:
AWS Certified Cloud Practitioner
Computer Networking Concepts
Microsoft Office 365
UI/UX Design with Figma
Clean Code & Best Practices
Proficient with Latest Dev Tools
AI familiarity and Prompt Engineering

SOFT SKILLS

Problem-solving skills

Continuous learning behavior

Collaboration & teamwork ability

Strong analytical ability

Effective communication skill

Virabazar, Kabul — *Full-stack Developer*

SEPTEMBER 2019 - April 2022 (www.virabazar.com)

- Developed a nationwide eCommerce platform with Laravel, MySQL, Bootstrap 5.
- Improved site responsiveness, increasing sales conversions by 30%.
- Integrated online payment systems with multiple gateways.

EDUCATION

Kabul Polytechnic University, Kabul — Bachelor in Computer Engineering and Informatics

June 2017 - August 2021

I earned a Bachelor's degree in Computer Science, completing a four-year program focused on computing concepts, data structures, algorithms, and cutting-edge technologies.

My studies encompassed key subjects such as Full-Stack Web Development, Database Development, Software Engineering, Computer Networking, Network Security, Wireless Networks, Mathematics, Automata Theory, Discrete Mathematics, and Logic.

By applying theoretical knowledge through practical projects and coursework, I gained valuable hands-on experience and prepared myself to tackle real-world challenges in the tech industry.

Abdul Rahim Shaheed High School, Kabul — Secondary School Graduation Diploma

April 2004 - December 2016

Graduated with high academic performance, earning admission to Kabul Polytechnic University through the National Kankor Examination.

PROJECTS

Jafar Explains — Personal Blog

Ongoing — (www.jafarexplains.com)

Developing and managing a personal content platform (blog, Instagram, YouTube, and podcast) in Persian, focused on motivating and educating the younger generation, building a tech community, and connecting people through practical advice, personal growth strategies, and expert insights.

Bachelor's Final Project – Driver Drowsiness Detection System

Jan 2021 – Jul 2021 | Kabul Polytechnic University — (www.kpu.edu.af)

Collaborated on an AI-powered system using Raspberry Pi and computer vision to monitor driver alertness in real time, reducing fatigue-related accidents. Incorporated traffic violation tracking to improve road safety and regulatory compliance.

LANGUAGES

Persian/Dari: Native
English: C2, fluent
Pashto: National, fluent
German: A1, beginner
Urdu: Speaking

HOBBIES & INTEREST

Listening to podcasts on technology, startups, market trends, and personal development

Watching documentaries and films related to technology

Reading books on programming, AI/ML, blockchain, and tech innovations

Passionate about running, mountaineering, and fitness
