PROFESSIONAL SUMMARY

Results-driven Senior Full-Stack & Systems Development Specialist with 5+ years of experience building scalable enterprise solutions for telecom and banking sectors. Specialized in React.js, Node.js (NestJS), and Laravel, with expertise in system architecture, REST APIs, microservices, and workflow automation. Proven track record in optimizing system performance, leading development cycles, mentoring developers, and implementing robust CI/CD and code quality practices.

EXPERIENCE

Afghan Telecom Corporation, Kabul— Software Developer

June 2025 - PRESENT

- ✓ Lead development of enterprise telecom systems using Laravel, Node.js/NestJS, React, and Livewire.
- ✓ Design and implement RESTful APIs and scalable back-end services to support telecom operations and workflow automation.
- ✓ Optimize system performance, improve operational efficiency, and contribute to scalable system architecture decisions.
- ✓ Conduct code reviews, maintain coding standards, and collaborate with QA and UI/UX teams using Agile/Scrum methodologies.
- ✓ Prepare technical documentation including API specifications, deployment procedures, and system workflows.

Ghazanfar Bank, Kabul — Full-stack Developer

Dec 2024 - June 2025

- ✓ Led end-to-end development of **GB Suite**, a banking management platform digitizing **HR, Finance, Admin, and Transportation** operations.
- ✓ Designed scalable front-end and back-end architecture using **TALL Stacks** (Laravel, Livewire (FilamentPHP), and TailwindCSS & [Alpine.js](#)).
- ✓ Developed RESTful APIs and workflow automation features, significantly improving operational efficiency and accuracy.
- ✓ Collaborated with stakeholders and cross-functional teams to deliver secure enterprise-grade banking solutions on schedule.
- ✓ Authored technical documentation, system workflows, and deployment guidelines for internal teams.

SKILLS

Programming Languages:

PHP, TypeScript, Java & Python.

Front-end Development:

HTML, CSS, Bootstrap, Tailwind CSS, Sass/Less, & React.js.

Back-end Development:

Laravel, [Node.js](#), Django & RESTful APIs.

Database & Data Management:

SQL (MySQL, PostgreSQL, SQL Server), Database Design & Analysis (ERD/DFD) & NoSQL (MongoDB).

Development & Collab Tools:

Git/GitLab, Unit Testing, Integration Testing, Code Review, Mattermost (self-hosted), Internal Wikis, Project Tracking Tools.

DevOps & Configuration:

Server configuration for development environments, Workflow Automation, Microservices Architecture.

Other Practices:

Agile Methodologies (Scrum) Leadership, Technical Documentation, Performance Optimization, Cross-functional Collaboration, Mentoring, Problem Solving.

Persian/Dari: Native
English: C2, fluent
Pashto: National, fluent
Urdu: Fluent

Donya International Group, Kabul — Full-stack Developer

May 2022 - Dec 2024

- ✓ Built and maintained **sales operation systems, CRM services**, and enterprise web applications using **Laravel** and **modern JavaScript frameworks**.
- ✓ Managed development and maintenance of the **company's main marketing platform** and multi-brand CRM mailing systems.
- ✓ Implemented scalable APIs and optimized back-end services to improve system reliability and response time.
- ✓ Coordinated with business, design, and QA teams to deliver new features and improve customer engagement workflows.
- ✓ Contributed to code quality practices, debugging, and performance optimization initiatives.

SaveZone Vehicle Tracking Company, Kabul — Junior-Software Developer

Sep 2019 - Apr 2022

- ✓ Developed and maintained the **Management Information System (MIS)** for vehicle tracking and monitoring operations.
- ✓ Assisted in **server management, troubleshooting**, and infrastructure support for tracking devices and enterprise systems.
- ✓ Supported contracts and technical operations for government clients including the **Ministry of Interior (MOI)** and **Ministry of Defense (MOD)**.
- ✓ Participated in software deployment, maintenance, technical support, and system enhancement activities.
- ✓ Gained hands-on experience in enterprise software development, databases, networking, and operational support.

EDUCATION

Kabul Polytechnic University, Kabul — BSc. in Computing Information Science

June 2017 - July 2021

- ✓ Completed a **Bachelor's in Computer Science**, focusing on **Full-Stack Web Development, Mobile App Development, Database Development, Software Engineering, Networking, and Security**.
- ✓ Gained a strong foundation in **data structures, algorithms, discrete mathematics, automata theory, and logic**.
- ✓ Applied theoretical knowledge through **practical projects**, acquiring hands-on experience in modern technologies and software development.
